REMOTE READ METERS

ARLINGTON
THE AMERICAN DREAM CITY

and water billing

About 60,000 Arlington Water
Utilities customers have remotely read water meters, with more new meters being installed each day. The only difference between a traditional meter and the remote read meter is the way the meter is read. Both meters work in the same way, though a new meter can sometimes measure low flows of water more accurately than an older meter.

The data below shows a breakdown of customer water bills when compared to their meter type.

Data For Q1 2019 (October, November, December 2018)		
Tier	Percent Of Accounts (Traditional Meters)	Percent Of Accounts (Remote Read Meters)
Less Than $50	93.18%	93.58%
$50.01 - $100	5.38%	4.96%
$100.01 - $150	0.86%	0.87%
$150.01 - $200	0.26%	0.28%
$200.01 or more	0.32%	0.32%

Arlington Water accounts by average monthly water costs and meter type (Oct. 1 - Dec. 31, 2018)

■ Percent Of Accounts (Traditional Meters)
■ Percent Of Accounts (Remote Read Meters)

	Less Than $50	$50.01 - $100	$100.01 - $150	$150.01 - $200	$200.01 or more
Traditional Meters	93.2%	5.4%	0.9%	0.3%	0.3%
Remote Read Meters	93.58%	4.96%	0.87%	0.28%	0.32%
